Note

This collection covers the offices of Chancellor Albin O. Kuhn (1966-1971), Chancellor Calvin Lee (1971-1976), Interim Chancellor Louis Kaplan (1976-1978), Chancellor John Dorsey (1978-1986), Chancellor, then President, Michael Hooker (1986-1992), and President Freeman A. Harbowski, III (1992-present). Originally called the Chancellor's Office, the title was changed to President after the University System of Maryland reorganization in 1988 and the latter name has been used as the title of this collection.

The President's Office interacts with all aspects of the campus to some extent, and the arrangement of this collection is meant to represent this interaction at the highest level. Each Series contains the records of a single Chancellor or President and each sub-series contains records relating to the main

offices on campus, for example Academic Affairs, Administrative Affairs, and Human Resources. Main topics of interest include the development of the academic programs, recruitment and retention of faculty, the campus budget and finances, interaction with the State of Maryland, the Board of Regents and the Maryland Council for Higher Education, interaction with other colleges and universities within Maryland, the United States, and internationally, preparation for the Middle States accreditation review, and planning for the physical growth of the campus. Please note that these records only include those retained or generated by the President's Office; if available, departmental record collections may contain more extensive and/or specific information.

Series I, Albin O. Kuhn, is not divided into sub-series due to the smaller amount of records available and to mimic the structure of the previously processed Albin O. Kuhn papers. The records of Interim Chancellor Louis Kaplan have been retained with Series III, the office of John Dorsey, to minimize the separation of files that were housed and maintained together prior to their transfer to the University Archives. Series V, Freeman A. Hrabowski, III, is not yet processed due to the limited amount of material but the accessions are available to researchers; please contact Special Collections for additional information.

Records were stored and maintained by the University Archives and access was granted to researchers prior to processing.

The previously processed Albin O. Kuhn papers were kept separate from this collection to reflect the differences in the source of the materials. The Kuhn papers were donated by Kuhn directly and contain files detailing his time at the University of Maryland campuses at College Park, Baltimore County, and Baltimore. The files in the President's office records were donated from the President's office and relate only to time served while in that office.

Donations are currently being accepted from the President's office for the term of Dr. Freeman A. Hrabowski but will remain unprocessed until there is sufficient material to process. The unprocessed accessions are open to researchers and have been included under Series V in the container list.

Processing Note

The President's Office records were processed in 2009-2010 by Project Archivist Jeff Karr as part of a campus-wide initiative to prepare for the 50th anniversary of UMBC in 2016. Designated funding was allocated by Provost Elliot Hirshman. Assistance was provided by Special Collections Archivist Lindsey Loeper, graduate assistant Homira Pashai, and student assistants Michelle Kessler, Nicole Smith, Amelia Jennings, and Sarah Hovde. This is the first collection of department records from the University Archives to be processed at UMBC.

Several processing decisions deserve explicit explanation. Due to the anticipated high level of use for all of the University Archives collections leading up to the 50th anniversary and the temporary status of the Project Archivist position, folder level arrangement was set as the standard. This means that the title and order of the contents of a folder were retained. Folder level processing allowed the Project

Archivist to process more material than if processing had been done at the more detailed item level arrangement. Folders were examined for items that were sensitive, confidential, or outside of the University Archives collecting policy (last updated September 2008) and these items were removed. Publications relating to UMBC or the larger University System of Maryland were also removed and transferred to the University Publications collection. All items removed are noted in the original folder with a document removal form. Oversized or physically compromised materials were transferred to appropriate storage and preservation photocopies were created for newspaper clippings. Staples were not removed unless rusting or damage was observed. Sort phrases were added to the front of some folder titles to expedite arrangement.

Users will note that the date ranges within a series do not match the exact dates of service by the President or Chancellor. It was apparent that some files created by one President were retained and actively used by the succeeding President; in these cases the files were kept with the later President. If a collection of folders on one topic spanned multiple President's terms, the entire grouping was kept with the later President. Additionally, due to the short length of Louis Kaplan's interim term and the lack of a clear distinction between offices, Kaplan files have been retained with the John Dorsey files in Series III.

Series Description & Container List

Series I. Albin O. Kuhn

Date: 1951-1973; bulk 1966-1971

Extent: 10 boxes (5 linear feet)

Description: Albin O. Kuhn served as the first Chancellor of UMBC and was heavily involved in the initial planning, development, and construction of the campus. The records included here were transferred from the President's Office and primarily reflect Kuhn's work as Chancellor from 1966-1971. Kuhn donated his personal papers to UMBC in 1982; these papers were processed as the Albin O. Kuhn papers and contain documents from Kuhn's employment at the University of Maryland College Park, UMBC, and the University of Maryland, Baltimore. This series is arranged similarly to the Albin O. Kuhn papers: folders are arranged alphabetically by main office or subject and then chronologically. Original titles are retained with the exception of the addition of the sort phrase as needed.
