- American Type Culture Collection records

Overview

Title: American Type Culture Collection records
Call Number: Coll010
Creator: American Type Culture Collection
Dates: 1916-1997
Size: 10 boxes (13.5 linear feet)
Language: English
Abstract: Files and publications documenting the history of the American Type Culture Collection. The collection includes publications, correspondence, articles, tape recordings, and photos. Of note are the first volumes of the American Type Culture Collection Catalog, and the personal research papers of the longtime director, Robert E. Stevenson.
Citation: American Type Culture Collection records, Center for Biological Sciences Archives, Collection 10, Special Collections, University of Maryland, Baltimore County (Baltimore, MD).

Administrative/Biographical Note

Established in 1925, ATCC is a private, nonprofit biotechnology organization. It serves as a repository for microorganism cultures, as well as a global leader in biotechnology research. ATCC is involved in collecting and distributing cell lines and other research materials.

Scope & Content

Arrangement

Not yet arranged; publications have been interfiled by title, then date.

Provenance Information

Provenance and Acquisition Information

SARCV 1995-15, SARCV 1996-11, SARCV 1997-07, SARCV 1997-23, SARCV 1998-04, SARCV 1998-05; Catalogs, newsletters, and a book were transferred to the archives by ATCC in 1995 and accessioned by Marcia Peri in 1998. Dr. Robert Stevenson deposited 1 cubic foot of A/V material, papers, and reports of the NIH Cancer Virus Program in 1996 which were accessioned by John Beck in 1997. ASM donated further A/V materials in 1997 which are stored with the ATCC collection. Three smaller donations consisting mostly of publications were accessioned in 1997 and 1998.

Processing Note

Collection unprocessed.

Descriptive Rules Used

Describing Archives: a Content Standard (DACS)

[Archives Processing Manual: Description \(2015\)](#): The processing manual used in Special Collections for all descriptive platforms, including PastPerfect.
