

Overview

Title: Baltimore Sun photographs
Call Number: Coll117
Creator: Baltimore Sun
Dates: circa 1930-1989
Size: 338 boxes (293.5 linear feet)
Language: English
Abstract: Approximately 750,000 prints, negatives, and transparencies used in production of the Baltimore Sun and the Evening Sun, dating from the 1930s through the 1980s. It is estimated that 90% are original Baltimore Sun photographs while the remaining are from non-Sun sources. Publication and creator information may be present with the prints.
Citation: Baltimore Sun photographs, Baltimore Sun Archives, Collection 117, Special Collections, University of Maryland, Baltimore County (Baltimore, MD)

Provenance Information

Provenance and Acquisition Information

Collection was donated in multiple parts from the Baltimore Sun. A selection of UMBC-related prints were purchased by the Library in 2014.

Related Collections

Baltimore Sun Digital Image Fortress service. Accessed November 19, 2015.

Processing Note

Collection is unprocessed. The photo prints were arranged in 2006-2007 by Special Collections students under supervision of Archivist Marcia Peri; photos of people were arranged alphabetically and the remaining prints were sorted by subject. A folder list is available. The negatives and transparencies (1983-1987) are stored in the original file cabinets; depending on the year, they are arranged by date or by the last name of the photographer. Most of the sports related negatives have been separated out into one filing cabinet. Photographers logs are available for 1983-1986.

Descriptive Rules Used

Describing Archives: a Content Standard (DACS)

[Archives Processing Manual: Description \(2015\)](#): The processing manual used in Special Collections for all descriptive platforms, including PastPerfect.
